MIDNIGHT
 BEAUTY[®]

Large, crisp, juicy, sweet.

Cv. SUGRATHIRTEEN

Early black seedless grapes with large, elongated berries and large clusters that are shatter resistant, hang well on the vine and have excellent storage and shipping qualities. Berries are firm, crisp, uniform, and develop a good flavor with low acidity at harvest. **Sugrathirteen** colors easily and has consistently abundant production.

Varieties in the Pipeline

Cv.Sugrafortynine

Ultra-early black seedless grapes are similar to MIDNIGHT BEAUTY® brand grape with great production and flavor. Elongated, fully black berries with bright green stems that do not brown quickly. Holds up well in cold storage. Its medium-high vigor vine carries 75-80 clusters. Berries are firm and juicy with a fruity aroma. Harvest window is three weeks before Sugrathirteen (MIDNIGHT BEAUTY® brand).

Cv.Sugrafitfytwo

Ultra-early green seedless grapes with oval, elongated berries. It has large, naturally loose and uniform bunches. Hangs well on the vine with good storage qualities. Berries are firm and juicy with a fruity aroma and low acidity. Harvest window is two weeks before Sugraone (SUPERIOR SEEDLESS® brand).

INTERNATIONAL PARTNERSHIP

We partner with the finest growers and marketers throughout the world. As a result, Sun World fruit varieties are grown on over 55,000 acres (more than 22,000 hectares) on six continents, ensuring year-round supply of some of the best fruit available.

Cv.Sugrafitfitysix

Mid-season green seedless grapes with naturally large elongated berries and large loose clusters, with excellent fertility. Its berries are very crisp with neutral flavor. Harvest time is 2-3 weeks earlier than Sugrathirteen (MIDNIGHT BEAUTY® brand).

Cv.Sugrafortyeight

Mid-season black seedless grapes are similar to ADORA SEEDLESS® brand grape with oval, elongated berries and large broad clusters that hang very well on the vine and have excellent storage qualities. Harvest window starts four weeks after Sugrathirteen (MIDNIGHT BEAUTY® brand).

Cv.Sugrafitfitythree

Ultra-early red seedless grapes with oval, elongated, deep red berries. Medium-high vigor vines with 80-90 cluster counts and holds up well in storage with good berry attachment. Berries are firm and juicy, with a fruity aroma and color that develops naturally. Harvest window is one week before Flame Seedless.

Cv.Sugrafitfityfive

Ultra-early black seedless grapes with naturally large reddish-black berries, large loose clusters. Its vine has excellent fertility. Its berries are crisp-sweet with aromatic tropical flavor. Two Powdery Mildew resistance alleles. Harvest window is 7-10 days before Flame Seedless.

Cv.Sugrafitfityone

Early green seedless grapes with large, oval-shaped, milky-green berries and large bunches that hang very well on the vine and have good storage qualities. Its medium-high vigor vine is highly fertile and grower friendly. Berries are crisp, sweet and juicy with a mild Muscat flavor. Harvest window starts four days after Sugraone (SUPERIOR SEEDLESS® brand).

Cv.Sugrafitfityfour

Mid-season green seedless grapes with naturally large oval-shaped berries and large bunches that hang very well on the vine and have small seed trace. Its medium-vigor vine is highly fertile. Its berries has a crisp juicy texture with amazing tropical-muscat flavor. Harvest window is 3 weeks before Sugrathirteen (MIDNIGHT BEAUTY® brand).
